describe your perfect day: I love swimming so my favorite days are when we go to Castle Island or Lake Cocichuate and my parents throw things way far out so I can show off my swimming skills. Then I love to get a bath to rinse off and take a long nap!

when I grow up I want to be (career description) ... : A proud pit-bull breed ambassador and a family man who can be comfortable and calm around new visitors and new adventures!

I love my parents because ...: They take the time to show me how to be confident and well mannered and they make sure I get all the crazies out every day in the form of swimming, hiking, running or training!

I hate to admit it, but my naughtiest moment was...: When I was younger and thought I still had to fight for food. I was scared that other dogs were going to take it so I was a little over protective.
