describe your perfect day: I get to start the morning by snuggling with Mom and Dad and then we go for a long walk all together and I get lots of treats for being good! Then I get to take a nap and chew on a bully stick. Afterwards, we get in the car and go to Gram's house where I can chase the squirrels, run around in her big fenced-in yard, and play with my friend Abby.

when I grow up I want to be (career description) : A detective. I'm always curious about everything around me and I love to investigate things!

I love my parents because : They feed me and play with me and give me cozy beds to sleep in and yummy treats to chew on.

I hate to admit it, but my naughtiest moments were : When I used to bite people because I was confused and didn't know what else to do!
